La Historia de Pocahontas *en español*

A Note to Parents

DK READERS is a compelling program for beginning readers, designed in conjunction with leading literacy experts, including Dr. Linda Gambrell, Professor of Education at Clemson University. Dr. Gambrell has served as President of the National Reading Conference and the College Reading Association, and has recently been elected to serve as President of the International Reading Association.

Beautiful illustrations and superb full-color photographs combine with engaging, easy-to-read stories to offer a fresh approach to each subject in the series. Each DK READER is guaranteed to capture a child's interest while developing his or her reading skills, general knowledge, and love of reading.

The five levels of DK READERS are aimed at different reading abilities, enabling you to choose the books that are exactly right for your child:

Pre-level 1: Learning to read

Level 1: Beginning to read

Level 2: Beginning to read alone

Level 3: Reading alone

Level 4: Proficient readers

The “normal” age at which a child begins to read can be anywhere from three to eight years old, so these levels are only a general guideline.

No matter which level you select, you can be sure that you are helping your child learn to read, then read to learn!

 READERS

Animal Hide and Seek

Written by Penny Smith

DK Publishing, Inc.

In the wild, some animals eat
other animals for food.

The animals hope their enemies
do not see them.

Some animals are covered
in patterns and colors.

They look like their surroundings.

This is called camouflage
[KAM-uh-flahj].

Comma
butterfly

Green
tree frog

Woodcock

In the shade of the woods,
a little fawn lies sleeping
next to a tree.

Its spotted coat makes it look
like a pile of fallen leaves.

Here is a family of wild boars.
A baby boar might make
a tasty meal for a wolf.
The babies have striped coats.
They are hard to see.

In the summer, the snowshoe hare
has red-brown fur.

In the winter, its fur grows thick
and white.

The hare crouches on the snow.

An owl flies overhead.

It does not see the still
and silent hare.

This American dipper
waits near a mountain stream.
It is looking for insects to eat.
Its blue-gray feathers
make it hard to see
against the water.

insect

The gray fur of
the chinchillas [chin-CHILL-uhs]
keeps them hidden against
the rocks and stones.
Owls, foxes, and snakes
do not notice them there.

When this butterfly's wings are closed, they are dark to blend in with the shadows.

When it flutters, its wings look like the eyes of a big animal. This startles an enemy. The butterfly has time to fly away.

This pipefish beats its tiny fins
and swims among the branches
of underwater plants.

Can you see it?

It is not easy.

These decorator crabs
hook seaweed, stones,
and small sea creatures
onto their bodies.
The crabs are hidden.
As the crabs grow,
they crawl out of their shells.
They put the old decorations
onto their new shells.

In the rain forest, the chameleon
[kuh-MEEL-yun] is as green
as the branch it sits on.

It can change color to match
its surroundings.

It is hard for enemies to find.

Can you see the stick insect?
It is the same color and shape
as the dead leaves
on the forest floor.
The stick insect's eggs
look like seeds.

In the African grasslands,
zebras graze together for safety.
Their striped coats make it hard
to tell one zebra from another.

Lions have trouble seeing
which one to attack.

lions

In the dry desert, a meerkat
sits up and sniffs the air.
Its silver-brown fur matches
the earth.

eagle

An eagle flies overhead.

The color of the meerkats' fur
makes it hard for the eagle
to see them.

Lots of animals are camouflaged.
They are hiding from you.
How many animals can you find?

Here are the answers:

1: looper moth, 2: gecko, 3: orchid mantis,
 4: flounder, 5: ptarmigan [TAR-mi-gun],
 6: tree frog, 7: leaf insect, 8: thorn bug, 9: seal.

Glossary

Eagle a large bird that hunts and eats smaller animals

Fawn a baby deer

Hare a large rabbit with long ears

Insect a small animal with six legs

Lions large, wild cats that live in Africa

Index

American dipper	12	hare	10, 32
boar	9	insect	12, 13, 32

Animals have many ways to keep themselves safe and hidden. How many animals can you find?

DK READERS

Stunning photographs combine with lively illustrations and engaging, age-appropriate stories in DK READERS, a multilevel reading program guaranteed to capture children's interest while developing their reading skills and general knowledge.

	Learning to read	● High-frequency words ● Picture word strips ● Labels to introduce and reinforce vocabulary
	Beginning to read	● Word repetition, limited vocabulary, and simple sentences ● Picture dictionary boxes
	Beginning to read alone	● Longer sentences and increased vocabulary ● Information boxes full of extra fun facts ● Simple index
	Reading alone	● More complex sentence structure ● Information boxes and alphabetical glossary ● Comprehensive index
	Proficient readers	● Rich vocabulary and challenging sentence structure ● Additional information and alphabetical glossary ● Comprehensive index

With DK READERS, children will learn to read—then read to learn!
